# Startup Program

# Startup Program

The OVHcloud Startup Program provides startups and scaleups with free cloud credits and technical consultations to accelerate your journey onto our secure, reliable, and cost-efficient cloud.

Free cloud credits  
Zero bandwidth costs

Tech freedom  
with open standards

Security and  
data sovereignty

A concierge journey  
with our personal touch

Join thousands of startups and scaleups from across the globe that have already entered our program so that you too can build an MVP in your early stages of development or accelerate and sell more products when you scale your business.

## For Startups

### 12-month program to accelerate your growth:

- Up to 10 000€ (or equivalent local currency) of free tech credits to use on our cloud solutions
- Up to 6 hours project-specific technical support to help you build your infrastructure
- Dedicated business ambassador in your locality to support your growth through the entire customer journey
- Possibility to be upgraded to scale level depending on your growth

## For Scaleups

### 12-month program to accelerate your growth:

- Up to 100 000€ (or equivalent local currency) of free tech credits to use on our cloud solutions
- Up to 20 hours project-specific technical support to help you build your infrastructure
- Dedicated business ambassador in your locality to support your growth through the entire customer journey

## About OVHcloud

- A major player in worldwide Public Cloud infrastructure
- Sustainability leader with water-cooled data centers on 4 continents
