

## Visitors' Sustainability Pledge

**INDEX<sup>TM</sup> is committed to minimising the environmental impact of INDEX<sup>TM</sup> 26.**

Creating a low-impact event requires a collective effort, and we encourage all attendees to actively support our sustainability goals. Together, we can make a meaningful difference by adopting sustainable habits throughout the event. Every small action helps reduce waste, cut emissions, and use resources responsibly for a greener event.

**Here are some simple, yet effective ways you can help make INDEX<sup>TM</sup> 26 a more sustainable event:**

- Choose the most energy-efficient option to travel to Geneva.
- Prioritise public transport in the city, by taking advantage of the free Geneva Transport Pass, available to hotel guests.
- Favour hotels within walking distance of Palexpo, or accessible by public transport.
- Prioritise hotels with recognised sustainability certifications.
- Commit to generating as little waste as possible during the event and dispose of waste properly in the designated bins.
- Refill your reusable water bottle at the venue's water stations, instead of buying plastic bottles.
- We will do our best to avoid food waste.

By making these conscious choices, we all contribute to a more responsible and sustainable INDEX<sup>TM</sup> 26.

Thank you for your commitment!

The INDEX<sup>TM</sup> team
