

TENDON FRAME

Create a fantastic eye-catcher for the back and/or sidewalls of your stand with a seamless, full-colour textile frame and banner. The neat, narrow aluminium profile combined with the banner adds a stunning look to your presentation space. Your stand will stand out to your visitors in a modern and professional way.

The textile frame not only serves as a back and/or sidewall, but it can also stand on its own, serving as a partition with a double-sided print option. In short, this system offers very flexible options.

- seamless presentation
- the banner is tautly stretched on the frame, thus free of creases and wrinkles
- visuals acquire a modern look
- great variation in sizes and applications
- includes assembly and disassembly
