

**A ribbon
for every
dream,
endless
possibilities.**

Made in Italy, chasing new horizons

We are an Italian ribbon
manufacturer with
over 40 years of experience in
producing high-quality ribbons.

Rooted in the heart of the
Biella textile district
(one of the most renowned in the
world), we provide *memorable*
packaging solutions for
business of any size.

We believe in *excellence, passion,*
and *authenticity*; these values
guide every detail in the crafting of
our ribbons.

Our **weaving** is the heart of our
quality. Thanks to having complete
control over the production
process, we can guarantee
impeccable finishes.

Art and craftsmanship intertwine
thread by thread, bringing vibrant
colors and refined textures to life.
Excellence is our goal, reflected in
the meticulous **attention to detail**
and the perfection of our creations.

A close-up photograph of a light-colored wooden egg resting on a wooden surface. A white ribbon with green and red borders is wrapped around the egg. The ribbon features the text "Sapori d'Italia" in a gold, cursive script. The background is a soft, out-of-focus gradient of light blue and white.

Premium Printing

Our ribbon printing department offers a wide range of custom printing services, ensuring high-quality and durable results.

With 4 advanced **screen printing** lines, we offer up to 2-color printing, ensuring precision and sharpness.

Our 4-color **rotary offset printing** lines ensure faithful reproduction for complex graphics.

Our equipment also includes 8 **hot foil stamping** machines, perfect for metallic effects and luxury finishes.

Additionally, our digital printing capabilities enrich our portfolio, making it ideal for **custom graphics** and **unique patterns**..

Choosing us means relying on an expert team, ready to transform every idea into a unique, high-value ribbon.

Ready-made bows

At our own manufacturing facility, we are dedicated to crafting custom bows, with a special focus on design and quality. We offer a variety of styles—including **classic, bow-tie and flat bows** (as shown in the image), perfect for any type of packaging and occasion.

Thanks to our advanced **automation technologies**, we are able to produce ready-made bows at competitive prices, ensuring both artisanal excellence and production efficiency.

Our bows can be adapted to a wide range of products: from bags with **twist-tie closures** to boxes, where we can sew on an **elastic band** to secure the bow and streamline the packaging process.

Cutting and engraving

We are equipped with advanced **laser machines** for cutting and perforating, allowing us to offer precise, custom ribbon cutting both hot-cut and cold-cut.

Our technology offers a range of options including **straight, diagonal, and dovetail cuts**.

Thanks to integrated **photocells**, we ensure perfect alignment with printed logos, guaranteeing maximum precision and design integrity.

Sustainable options

We are firmly committed to offering a wide range of eco-friendly ribbons. We use certified organic cotton, prints with eco-friendly inks or **energy-efficient** laser engraving, which requires no ink at all.

Our goal is to provide sustainable solutions that meet our customers' needs while preserving the environment for future generations.

A creative image of a cardboard box with red ribbons and buttons attached to its base, resembling a shopping cart. The ribbons have the text 'TASTY RIBBON' and a logo printed on them. The buttons are blue, white, and silver. The box is set against a blue sky background.

Shopper handles

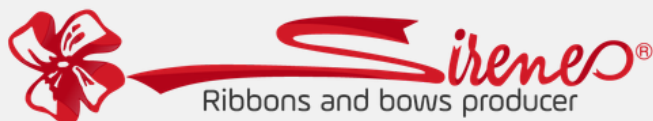

Our tipping service is the ideal solution for creating ready-to-use handles for bags and boxes. Through an **automated process**, we cut and apply **metal or plastic tips** to the ribbon ends, ensuring durability and functionality.

This process remove the need for manual knotting, streamlining handle assembly while providing an elegant, durable finish.

Clothing Labels

In our commitment to providing high-quality textile labels for the **fashion industry**, we combine artisanal craftsmanship with advanced technology. We are equipped with professional machines for **thermal printing** and **up to 4-color printing**, ensuring detailed and vibrant results that are ideal for both **composition and brand labels**. We rely on hot-cutting and ultrasonic **cutting machines** to achieve a clean, precise final finish.
