ABOUT US

Packaging Lux partners with premium brands and luxury houses to design and manufacture bespoke packaging. From the initial idea through to delivery of the finished product, we design cases, boxes, displays, bags and presentation solutions that combine elegance, high-quality craftsmanship and cost-effectiveness.

Drawing on our in-depth understanding of the luxury sector's requirements, we support companies in the jewellery, watchmaking, wine and spirits, cosmetics and premium products sectors in creating packaging that showcases their collections and strengthens their brand image.
