

AGEFI Awards 2026

Methodology

Eligibility Requirements

The scope includes ETFs, ETCs, ETNs, and ETPs domiciled in Europe and listed as of August 31, 2026.

The awards are at the fund level: its shares are aggregated, and any absorbed shares (due to a name change or ISIN change) are reclassified under the surviving fund.

The AGEFI Awards honours ETFs that experienced the largest relative growth of assets and those that demonstrated a successful launch through the two following prizes:

Hyper Growth Award

New Entrant Award

Hyper Growth Award

This award identifies ETFs that have seen the biggest improvement in sales, measured by the largest inflows over a 12-month period (as at the end of August 2026). Eligible funds per category need to fall in the AuM interval of the category as from the beginning of the period (August 31st, 2025). The following categories will be awarded:

- 50-100Mn AuM
- 100-250Mn AuM
- 250-500Mn AuM
- 500-1000Mn AuM
- 1-5Bn AuM
- 5Bn+

The winner is the eligible ETF demonstrating the highest growth rate, calculated based on its net inflows and assets under management (AUM) at the start of the period, according to the following formula:

$$\text{HyperGrowth Award} = \frac{12 - \text{month net inflows}}{\text{AUM (as of August 31 2025)}}$$

The Euro currency is used to set the AuM categories.

New Entrant Award

This award recognizes ETFs that attracted significant assets after their launch date.

The winner per category is the ETF that experienced the largest cumulative net flows over the next 6 months following its launch. Eligible ETFs are any funds launched 18 months prior to the record date and no later than February 28th 2026. The categories for this award are:

- All categories
- Thematic
- Active
- Commodity
- Digital Asset
- ESG

The seed capital is included in the New Entrant's cash flows: Trackinsight records it as a cash flow for the launch date.
